Orange County Medical Association Selects CHMB as Business Partner

CHMB Medical Billing Services will extend special offers to OCMA Physician Members

Escondido, CA, June 1, 2010 – The Orange County Medical Association is pleased to announce another benefit of membership. The OCMA has designated California Healthcare Medical Billing (CHMB) as their Business Partner for physicians who are looking to outsource their medical billings and revenue cycle management.

OCMA members receive a 50% discount on startup fees, a \$33 per physician per month services credit, and a free coding hotline with assistance by Certified Professional Coders.

CHMB provides outsourced medical billing, revenue cycle management services, information technology support, and hardware solutions to physician practices, clinics and multi-specialty organizations. CHMB is the largest revenue cycle management company in California and serves over 1000 physicians.

“As the healthcare industry grows increasingly complex in regards to coding, governmental policy changes and insurance companies consolidations, physicians are looking at outsource partners who will improve their collections performance, maximize reimbursements and provide them with essential information on the business side of their practice,” said Bob Svendsen, CEO and co-founder of CHMB.

The strategic business partnership with CHMB reinforces OCMA’s commitment to bring added- value to its members by aligning with companies who offer business practice expertise, allowing physicians to focus their attention on patient care.

About CHMB

CHMB, a leading provider of outsourced business services, was founded in 1995 to provide billing and other business services for medical practices of all sizes via the ASP model. By addressing all the various elements of hardware, software, connectivity, implementation and ongoing training and support challenges facing physician offices today, CHMB provides cost-effective solutions for Revenue Cycle Management and EHR Adoption & Implementation Services to Health Systems, MSO, IPA’s and Community Physicians.
